

Rostyslav Putnikov

Junior PYTHON Back-End Developer

SUMMARY

I graduated from the Hillel IT Academy with a degree in back-end web development in Python, among the best graduates. I can work with such frameworks as Django and FastApi, as well as with many related products and technologies. I like learning new technologies. Before that, I worked in construction, and I can work both in a team and independently, both with customers and organize my own business projects. I am sure that my skills and desire to achieve good results will be useful in any team.
